SIG-I ACTION PLAN FOR COUNTERINTELLIGENCE AND OTHER
COUNTERMEASURES AGAINST THE FOREIGN INTELLIGENCE THREAT

The following actions will be undertaken by an interagency Ad Hoc Working Group to be convened [redacted] of the Intelligence Community Staff and to be ready for early consideration by the NSC/SIG-I.

25X1

1. Guidelines will be developed:

- making the SIG-I responsible for national policy to protect the United States against the total foreign intelligence threat by means of counterintelligence (CI) and other countermeasures (CM), including protective security but excluding counterterrorism which is the responsibility of the NSDD-30 established Intedepartmental Group on Terrorism (IG/T), chaired by a representative of the Secretary of State;
- making the IG/CI chaired by the Director, FBI or his representative responsible for national counterintelligence policy under the SIG-I, including counterespionage; and
- making the IG/CM chaired by the representative of the DCI responsible for all other national countermeasure policy under the SIG-I, including countermeasures against technical threats such as SIGINT and imagery; countermeasures against "active measures" and "maskirovka"; and protective security measures including personnel, physical, information/document, industrial, computer, communications and operations security.

2. Other guidelines will be developed:

- making the interagency Community Counterintelligence Staff of the Intelligence Community Staff (ICS) serve as the secretariat for and provide staff support to the IG/CI and IG/CM under the Director, ICS; he has been designated by the DCI as Executive Secretary of the SIG-I;
- making this secretariat responsible for preparation for the NSC/SIG-I of a required overall annual assessment of the relative threat to US interests from intelligence and security services of foreign powers, and an assessment of the effectiveness of US counterintelligence/countermeasure activities;
- using the NSDD-30 mechanism of the IG/T and the Interagency Intelligence Committee on Terrorism for preparation of the required overall annual assessment of the relative threat to US interests from international terrorist activities, and an assessment of the effectiveness of US counterterrorism activities.

25X1

CONFIDENTIAL

[redacted]

3. After these guidelines have been developed and approved, the IG/CI and IG/CM will be activated. With staff support as appropriate, they will review:

- the recommendations of the March 1982 national assessment for the NSC of the multidisciplinary hostile intelligence threat, and
- the possibilities for enhancement of the national counterintelligence/countermeasure effort as cited in the NSSD-2 study.

The Assistant to the President for National Security Affairs has already formally requested that the March 1982 assessment recommendations be followed up as part of the NSSD-2 study process. The IG reviews should develop for early NSC/SIG-I approval:

- a selected and prioritized listing of legal and policy enhancements for subsequent detailed staffing and implementation; and
- a selected prioritized listing of resource enhancements for detailed initial consideration, followed by appropriate handling under budgetary procedures.

CONFIDENTIAL

SIG-I Participants

White House Situation Room, 12 July 1982, 1400 Hours
